REGIONE AUTONOMA
FRIULI VENEZIA GIULIA

**SCIENTIFIC
AND INNOVATION SYSTEM
OF FRIULI VENEZIA GIULIA**

What is SiS FVG

*Ministero dell'Istruzione,
dell'Università e della Ricerca*

*Ministero degli Affari Esteri
e della Cooperazione internazionale*

Born in 2016, it is a science and technology hub.

Based on the initiative of:

- **Friuli Venezia Giulia Region**
- **MAECI**
- **MIUR**

Area Science Park:
operational role
(monitoring and services)

Goals

Create an **excellence science network**

Rationalize regional research facilities and **technology transfer**

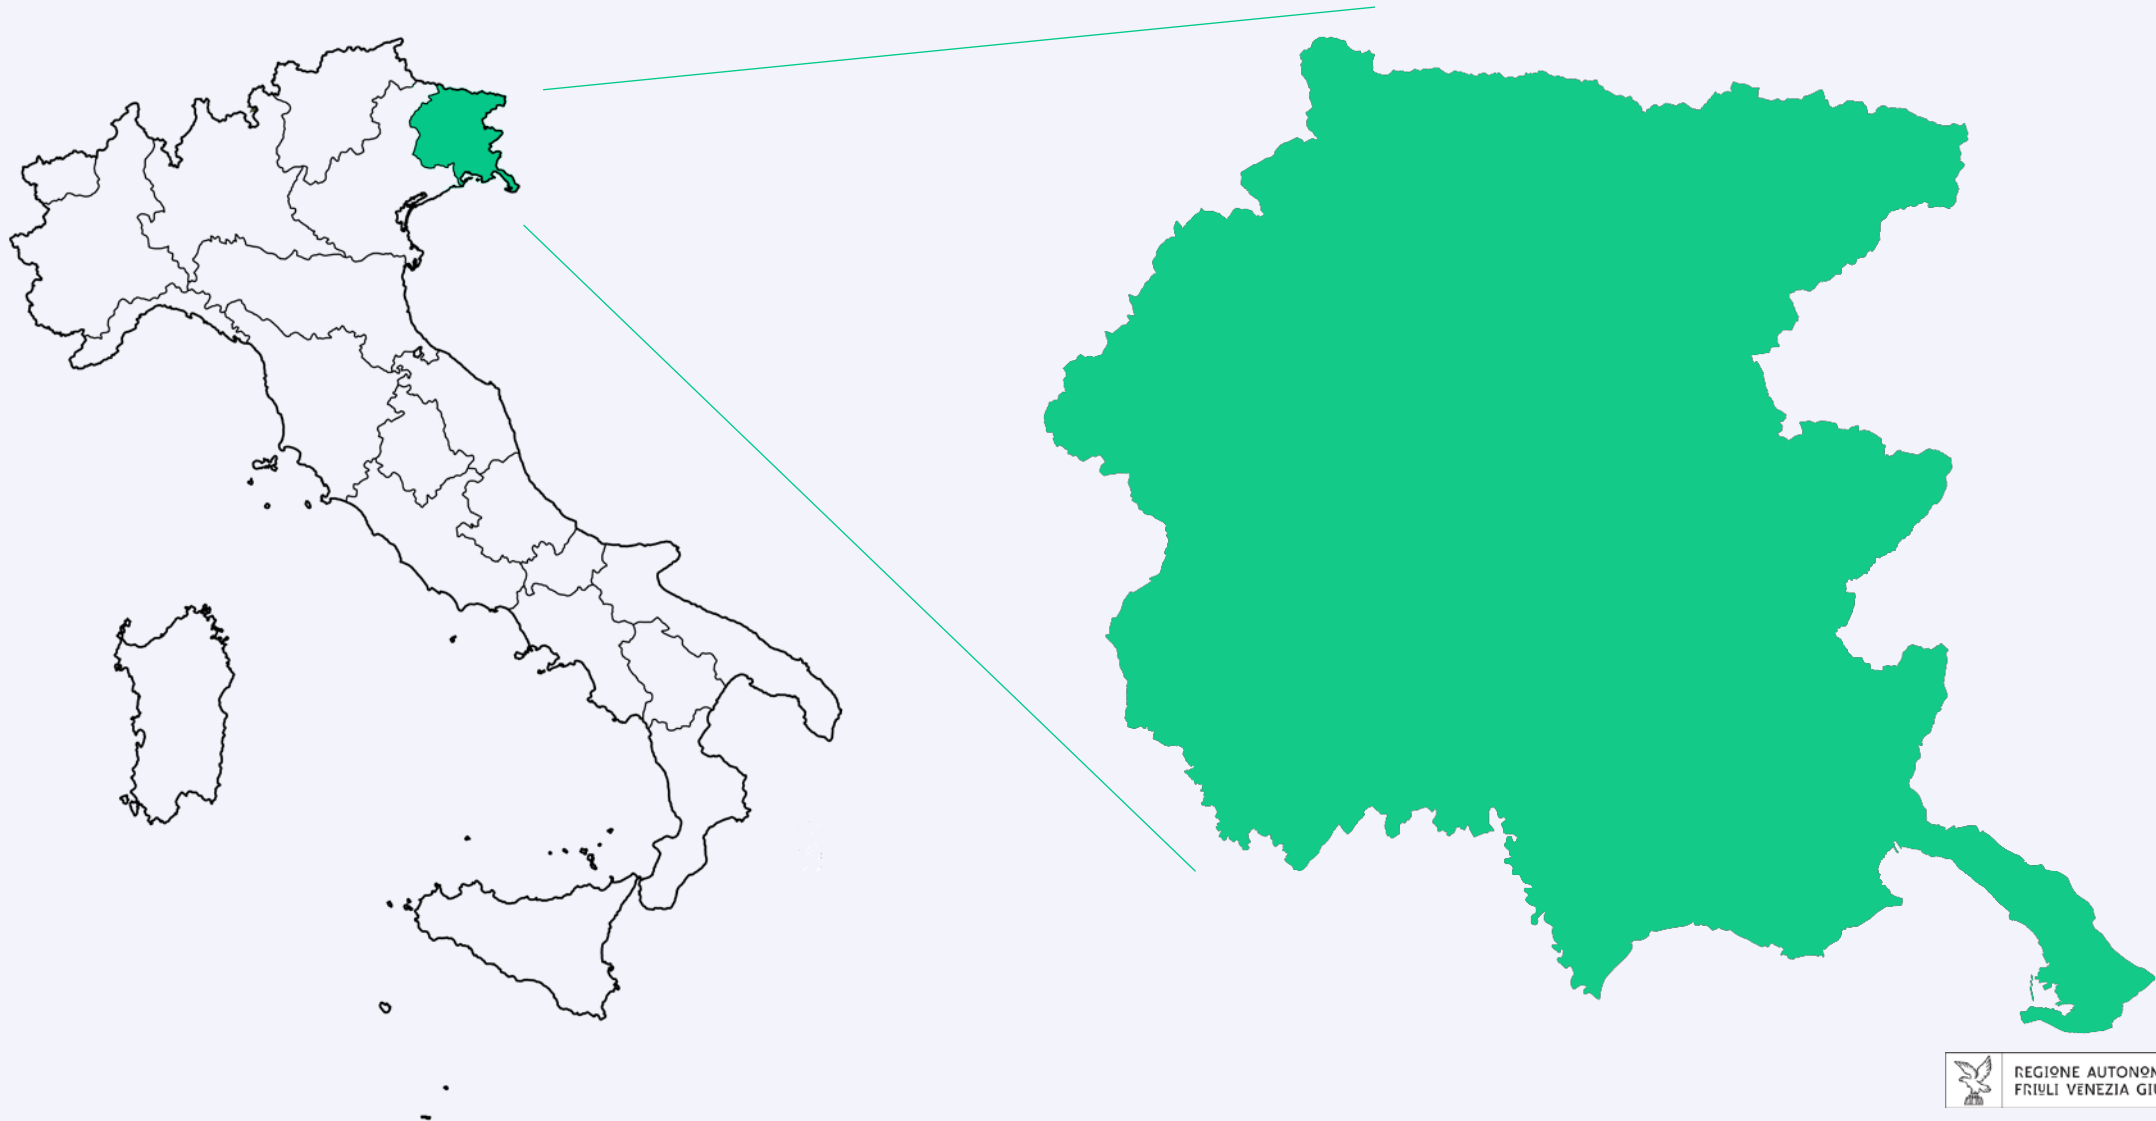

Promote and carry out **internationalization services**

Popularize and communicate innovation and science

Friuli Venezia Giulia

ABOUT
6,000
RESEARCHERS

ABOUT
2,000
TECH/ADMIN
STAFF

- 6 National Research Institutes
- 4 International Research Institutes
- 3 Science/Tech Parks
- 3 Universities
- 2 Conservatories of Music

AREA
FRIULI VENEZIA GIULIA

Researcher

Professional occupied in the creation of knowledge, products or processes, methods and systems, and in the management of those same processes.

This category includes tenured and non-tenured researchers (Temporary Research Fellows/ Post-docs, Research Assistants, etc.)

ABOUT
6,000

Researches affiliated
with SiS FVG's
institutes

1,997

R&D researchers in the
private sector in FVG
(ISTAT, 2016)

10.7

Researchers every
1,000 workers
(SiS FVG partners +
private sector)

8.9

Researchers every
1,000 workers in USA
(*UNESCO, 2016*)

The Excellence Science Network

Infrastructural Investments

National and International Networks

International Networks

Agreement between the FVG Region and EU Joint Research Centre (JRC)

Framework agreement for the cooperation among MIT, the FVG Region, University of Trieste and University of Udine

**3 Operative Agreements,
15 mobility tracks for SiS FVG
researchers at JRC**

**7 Exchange Projects between MIT
and regional science excellences**

€500,000

€150,000 per year

National Networks

AAL Programme (Active Assisted Living)

Support to the elderly population.
RAFVG manages calls, R&D projects
and access to European funding.

€200,000 per year

Blue Economy Platform

Created by OGS, it fosters maritime
sustainable economic growth.
In its frame, the Master in Blue Growth
and the Summer School with UniTs
have been set up.

€200,000 per year

International Networks

European Research Networks

ERRIN – European Regions for Research and Innovation

CORAL – Community of Regions for Assisted Living

RSCN – Reference Site Collaborative Network

National Networks

APRE Desk - Agency for the promotion of European Research

International network for R&D.
It promotes the participation to the European Research Networks.

Internationalization services

Welcome Office FVG

Regional one-stop-shop to support international students and researchers with their relocation.

Steady connections with local Public Administrations and the Ministry of Foreign Affairs' (MAECI) Offices.

Monitoring the internationalization

The Mobility of Knowledge

The annual survey monitors the attractiveness of the regional Scientific and Innovation System by recording the incoming flows of foreign researchers and students.

It contributes to the identification of good practices in the enhancement of human resources and in the management of mobility.
